# Computer Classes

## ◆ Advanced Fix and Troubleshoot

Bring a desktop or laptop computer and learn the advanced techniques for troubleshooting and repairing of all computers, monitors, etc. We will cover Windows registry edits, operating system re-installation and repairs, hard drive and SD card data recovery, motherboard replacement, BIOS tweaks and updates, password recovery and more. We will talk in plain language about hardware failures, software bugs, viruses, and other issues that shutdown many computers. We will also teach you preventive maintenance tips and how to get many useful free tools to complete advanced computer repairs. A great class for those who already know about PCs and want to build on their repair skills. Take this class instead of spending big bucks at a repair center. This class will be held at JobLink — 3333 Michigan Avenue in East Chicago. **Prerequisites: None**

**Wednesdays**  
**April 17 to May 15**  
**9:00 am to 12:30 pm or 3:30 to 7:00 pm**  
**Instructor: William Needles**

## Alarm Security Systems for Home and Business

Alarm security systems can drastically differ in price, features, and quality. In this class we will compare and install different types of home security systems. This class will help you find the system that best fits your household or business needs. Purchasing your own home or business security systems allows you to bypass the monthly fees if you use a non-monitored system. We will also show you how to save in monthly fees for a monitored system. This class will be held at the Leon Lynch Learning Center — 1410 Broadway in East Chicago. **Prerequisites: None**

**Thursdays**  
**June 6 to June 27**  
**8:00 to 10:30 am or 7:00 to 9:30 pm**  
**Instructor: George Zahariadis**

## ◆ Build a Basic Website

In this course, we will introduce you to a number of techniques useful in the design of a website. You will use friendly tools to create your own website - great for sharing information among families, social groups, clubs, church organizations—you name it. Your instructor is the website developer for many of the USW locals.

Constructing a presentable and easy-to-use website will be the focus of the course. In this class you will learn:

Basic Web design skills  
Using color effectively  
Understanding fonts  
Designing navigation  
Creating graphics that enhance your site  
Using multimedia (sound, animation, and other media) on your site. This class will be held at JobLink — 3333 Michigan Avenue in East Chicago.

**Prerequisites: None**

**Wednesdays**  
**May 22 to July 10**  
*(There will be no class on June 26)*

**Using the Cloud Workshop+**

The Cloud refers to a location on the Internet that stores data, making it accessible anytime, anywhere, from any device. As a computer user, you are probably already aware of the importance of backing up your data so you don't lose everything. The Cloud not only simplifies the process by allowing your data to automatically update as it changes, but it also creates copies of your data where it will be safe.

Using the Cloud lets you access your music, photos, calendars, contacts, documents, and more, from whatever device you're on. And it's built into nearly every new device and every new computer. Bring your smartphone or computer to learn how the Cloud can help you. This class will be held at JobLink — 3333 Michigan Avenue in East Chicago.

◆ Virus Protection Workshop

With approximately 800 or more new computer viruses every month, keeping anti-virus software up to date has never been so important. Despite this, the average computer user is usually unaware their workstation has been infected until they start to suffer the consequences of an attack from a virus, worm or Trojan horse. This workshop gives attendees an opportunity to gain hands-on experience of viruses. It also presents practical methods to reduce and contain virus infections. This class will also show you how to get a free virus checker for your home PC. This class will be held at the Leon Lynch Learning Center — 1410 Broadway in East Chicago. **Prerequisites: None**
