◆ Protect Your Online Privacy-Mini Class

Cyber security, phishing, worms, firewalls, Trojan horses, hackers, and viruses seem to be in the news every day. In addition, many of us have seen warnings to update virus protection, watch out for online scams, protect privacy, and to watch what we click on. But what does it all mean? And what can you do to safeguard access to your computer and to protect yourself and your family? What is this all about?

We will guide you through the steps needed to protect your online privacy. In just a few short classes you will know if you are at risk and how to better protect your valuable information.

Prerequisites: None

Tuesdays– August 18 to September 1
